ABOUT PLAN INDONESIA

“ADVANCING CHILDREN’S RIGHTS & EQUALITY FOR GIRLS AND YOUNG WOMEN”

Over 50 years working in Indonesia to ensure that children and young people, especially girls, can **LEARN, LEAD, DECIDE** and **THRIVE**

At the moment, we are **sponsoring more than 35.000 marginalized children** in **176 villages in NTT** and engaged & supported hundred of thousands children and youth through **more than 30 projects in 8 provinces** and nationwide **campaigns**

Our priority programs:

1. Sponsorship Program: Children’s Wellbeing
2. SPACE: Stunting Prevention & Adolescent Health
3. EVACY: Ending Violence Against Children & Youth
4. Youth Employment & Entrepreneurship
5. Humanitarian and Resilience Program: Youth & Climate Resilience, Resilient School, DRR & Humanitarian Response,
6. Girls Leadership Program

PLAN INTERNATIONAL'S THEORY OF CHANGE

SOCIAL INCLUSION

Social Inclusion is the process of improving the terms on which individuals and groups take part in society – improving the ability, opportunity, and dignity of those disadvantaged on the basis of their identity.

In this first image, it is assumed that everyone benefits from the same support. They are being treated **equally**.

Individuals are given different support to make it possible for them to have equal access to the view. They are being treated **equitably**.

All three can see the view without any support because the cause of inequality was addressed. The systemic barrier has been **removed**.

Green Skills Program *Jenet*

Green Skills Program: empowerment of young people (18-29 y.o) in sustainable agribusiness. Implemented in 84 villages in 2 districts in NTT Province.

We introduced **climate smart agriculture**, working with market player/buyer, providing **access to finance and technology**, **challenging norms**

1337 young farmers (64% women)

164 organic farming groups

90 ha land revitalized for agriculture

Reduced water usage by **75%**

Potential saving from **renewable energy**

EVACY

Ningsi & Suci

1 in 9 girls married before the age of 18

Over **4000 cases** of violence against children reported in 2022 (KPAI)

Plan Indonesia works with youth champions, other CSOs and in alliances to **advocate** and **campaign** to end **child early and forced marriage**.

Youth activists and peer educators are trained and empowered to campaign against child marriage and raise awareness on sexual reproductive health

Village Child Protection Committee actively raised awareness, engaging parents, *adat* and religious leaders

We help girls **to continue education and learn skills for livelihood**

We conduct research, develop policy papers and influence decision makers to **adopt and implement legislations and invest in efforts to promote child protection**

YEE Putri

In the last four years, **68000 youth have been trained** on digital skills, business management and entrepreneurship, soft skills, and industry-specific skills (e.g. hospitality)

9000 youth have found employment/got access to internships
1000 youth have started a new or improved business; some receive financial investment from Government, banks and other financial institutions.

We ensure **digital safeguarding and data privacy protocols** are in place for online activities aiming to protect vulnerable youth/young women.

Allowances are provided for training support to provide internet access

ENSURING “NO ONE LEFT BEHIND”

Key Success Factors:

- Understanding of context including cultural and social aspects (norms, power relations) and the environment and structural hindrance
- Putting children and young people at the centre as agents of change (youth-led initiatives)
- Collaborations, Partnerships & Alliances
- Invest in Soft Skills and Leadership Skills
- Role models, Peer Educators, Mentoring
- Technology as opportunity: apps, social media
- Fun & Engaging
- Realistic expectations and timelines; change takes time!

THANK YOU
